To the Office:

Prior to examination of the above-referenced United States Patent Application filed under 35 U.S.C. 371, the applicant requests the Office to cancel the claims that were submitted in the PCT examination (claims 1-16) and to enter the claims included in this preliminary amendment (claims 17-40). The applicant submits that these claims are supported in the specification and are being presented to more accurately claim the subject matter of the present invention.
